Available Program for One Semester Abroad

Student Exchange

A student exchange program is one semester or more of study abroad at one of UI's partner universities. Eligibility:

- GPA ≥ 3.2
- English proficiency
 - Toefl IBT min. 80, or
 - IELTS min. 6.5

Fee-paying study abroad

A fee-paying study abroad program lets student freely choose their destination university to study abroad for one or more semesters. The student is recommended to choose a university whose rank is higher than UI.

IISMA

IISMA is a distinguished international mobility program from the government that funds Indonesian students for one semester at top universities.

Our Alumnus from Single Degree

Raihan Alisha Nabila

Civil Engineering – 2013

One Semester abroad at
Universität Duisburg-Essen

Operation Manager, ISS Indonesia

It was a great journey to learn, connect, and expand my network - being the alumni gives me the position that I hold today in the company.

Tandhika Excellentio Yochanan

Architecture – 2010

One Semester abroad at
City University of New York

CEO, PT Ematey Magnifiko Kolonia

Collaborating across disciplines, real-world projects, and a diverse community have shaped my skills and broadened my horizons.

About Faculty of Engineering Universitas Indonesia

As the largest faculty, Faculty of Engineering Universitas Indonesia (FTUI) consists of 7 departments with 13 undergraduate programs, 12 master programs, 2 professional programs, and 7 doctorate programs. With over 84% of the 262 faculty members holding Ph.D. degree and 89 professors. Taking in around 7000 students and graduating 1500 graduates every year, FTUI grooms itself to excel as the nation's pride and able to compete in SouthEast Asia and currently held the title as receiving largest research funds in the university. As a result, in 2023 and 2024, FTUI is awarded as the best Engineering subject (#1st Rank in Indonesia) based on the Times Higher Education University Rankings.

Single Degree Program

Students will be awarded a bachelor's degree from UI (Sarjana Teknik or Sarjana Arsitektur). Students in this program are required to spend at least one semester overseas under the scheme of student exchange in UI partner universities or fee-paying study abroad.

Fast Track Program

International class undergraduate program students with above average academic achievement (min. GPA of 3.50 by the end of their 6th semester) are eligible to apply for the Fast Track Program. The Fast Track Program allows students to integrate their Bachelor and Master Program in 5 years time (10 semesters). The master program can be either pursued at FTUI or partner university.
